# 2018

*Thanks to our*

## 2018 Reception Sponsors

**Weber Flavors**

**Bell Flavors & Fragrances**

**Elite Spice**

Thank you for joining us for the 2018 Dogwood IFT Food Industry Expo and for your support of this great professional organization! To our exhibitors, we will continue to work at making this event worth your investment. To our guests, our goal is to encourage support and interaction of all parts of the food industry in our region.

### Show at a Glance

<b>Seminar Sessions Gold Hall 2</b>	<b>10:00AM - 2:00PM (Including lunch break)</b>
<b>Supplier Exhibits—Gold Hall 1</b>	<b>2:00PM - 5:00PM</b>
<b>Casual Reception - Cash Bar Cabarrus Brewing Company</b>	<b>5:30PM - 8:00PM?</b>

*The Dogwood Food Industry Expo is produced by...*

# Seminar Sessions

Speaker Bios available at [www.eventswithattitude.com](http://www.eventswithattitude.com)

## 10:00AM "Welcome"

**Robert Price**, President, Dogwood section, IFT  
United States Department of Agriculture - Agricultural Research Service

The purpose of the Dogwood Section of IFT is to:

- promote interest in food science
- encourage discussion and share technical information relating to food processing
- advance the profession by promoting high professional standards
- provide cooperative relationships between the food industry and faculty, staff, and students in food science programs

## 10:15AM "Investments in Food Tech– Beneficial for the Industry?"

**Bill Aimutis**, Director, NC Food Processing and Innovation Center  
*A partnership between the NC Department of Agriculture, NC State University and the NC Research Campus (NCRC)*

The food industry is experiencing tremendous growth by venture capital today, but will these investments meet the goals of the investors? The energy boom a decade ago demonstrated how investments can fail if the industry is not well understood by those investing. Are we setting up the food industry for a similar failure?

## 11:00AM "Plant Proteins: Moving to the Center of the Plate"

**Rody Hawkins**, Ph.D. President & CEO, Improved Nature LLC

The global plant based meat market is about \$4.6 billion with an annual growth rate of 6.8%. This demand has created frozen "Plant Protein" sections in most supermarkets and now they are moving to the refrigerated case. While these products are getting closer to meat, can they replace meat for flavor, nutrition, versatility, and texture? The answer is yes and this is what we are doing every day at Improved Nature.

11:45 Lunch Break

## 12:30PM "FDA Updates on FSMA Implementation"

**Jennifer Thomas**, Interim Director for FSMA Operation  
FDA/Center for Food Safety and Applied Nutrition

FDA has developed a three step strategy for FSMA implementation. The first stage was establishing standards for the seven regulations, industry guidance and policy. The second phase was design of strategies to promote industry compliance. The third step is the actual implementation, monitoring, evaluation and updates to the standards and strategies for compliance. This presentation will focus on current FDA updates on FSMA implementation..

## 1:15PM Industry/Regulatory Panel Discussion on Food Innovation and FSMA Implementation

**Moderator: Chris Gunter**, Vegetable Production Specialist & Professor, NC State University

**Panelists:** **Anita MacMullan**, NC Dept. of Agriculture, Food & Drug Protection Division

**Debbie Hamrick**, Director of Specialty Crops, NC Farm Bureau

**Austin Westenhofer**, Director of Innovation, BestCo, Inc.

**Maya Zuniga**, Supply Chain Optimization and Technical Expert, S&D Coffee
